BOAT SEAT

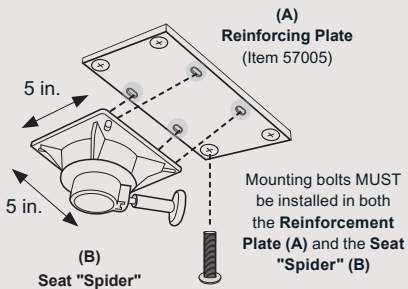

WARNING!

MUST READ BEFORE INSTALLING SEAT

This seat requires a **Reinforcing Plate (A)** if using a **Swivel Mount (B)** also known as a Seat "Spider".

Ensure the Reinforcement Plate is sandwiched between the seat and the Swivel Mount and utilize all 8 of the imbedded T-nuts for attachment.

Installation without using all 8 mounting holes will void your warranty and could result in personal injury, and you will waive all legal claims against TEMPRESS Products, LP.

TEMPRESS Reinforcement Plate #57005 is sold separately. Seat Spider (B) is sold separately and is not a TEMPRESS product.

Please visit www.tempress.com or call 1-877-234-7466 for assistance.
